Dishwasher Safe

Our porcelain is fired at high temperatures which making it highly resistant to repeated dish washing cycles at high temperature.

Microwave & Salamander Safe

Ariane Porcelain products are both microwave and salamander safe due to their heat resistant layer of glaze. (Other than products with all kind of decorations including with precious metals like Gold, Platinum etc.).

Smooth Appearance

The special glaze fired at high temperatures not only gives all our porcelain a smooth, clean finish, but also ensures that it becomes completely non-porous, guaranteeing higher levels of hygiene.

Limited Danger in Case of Breakage

The products are designed to avoid breakage hazards, as they break cleanly into safely manageable pieces.

Thermal Shock Proof

Ariane Fine Porcelain not only retains heat to keep the food warm, but also is resistant to variations in temperature.

Absolute Functionality

All our designs focus on sheer functionality to conform to industry guidelines. Most of our items are stackable including cups, bowls and platters, a design ingenuity that facilitates efficient optimization of space.

Abrasion Proof

The special glazing fired under high temperature ensures strong resistance to scratches or abrasions.

High Chip Resistance

The significant composition of high alumina raw material offers strength and resistance against chipping at critical points such as edges of cups, plates and handles. This configuration reinforces the porcelain, reducing risk of breakage and increasing the product's endurance.
